Note: If you perform chores (work) in exchange for feed, pen rent, or other necessities for a project, use this screen to recognize the financial value of this arrangement. A properly-documented SAE-related labor exchange likely includes three parts:

- Use this screen to recognize the value of your labor exchanged for inputs in your project.
- Use the journal to recognize time spent and skills developed from your labor.
- Your SAE Plan should fully describe this arrangement.

This screen performs a financial trade and ONE Journal showing the activity. Be sure to add more [journals](#) as needed.

INSTRUCTIONS: Supports genuine records that support the work completed for a resource when not using cash

NOTE: If no work/labor was done or is recorded using the journal, it would cause an ask if the resource was secured as a gift

SAE Labor Exchange

Income and Expense are SAME SAE

INCOME should have hrs, rate as labor for the resource in memo

EXPENSE should be Inventory for Resale with weight in memo - *That will add animal to mkt manager*
