This will allow the student access to all financial transactions as well as herd management activities while seeing the animals on inventory. Market Manager is used for growing/replacement/exhibition animals. Breeding Manager is used for reproductive animals that will generate offspring.

# Breeding Herd Manager

## Breeding Manager:

- Manages any animal meant to generate offspring at maturity
- Non-Current assets assessed depreciation
- Use Tag, Age, Breed
- Manages ALL offspring
  - *Transfer, sell, death, use at home*
- Log herd management tasks
- Can edit to add to SAE  by clicking Setup and choosing the market manager

head of Commercial Breeding Sheep  
~~head of Market Sheep~~  
✓ head of Registered Breeding Sheep  
~~head of Show Sheep~~  
other

\*\* USE Breeding Sheep from category unit dropdown

# Breeding Herd Manager

- Found on the Finance Tab
- Select Breeding Herd Manager

The screenshot displays the 'AET Finances' interface with three tabs: 'Profile', 'Journal', and 'Finances'. A red arrow points to the 'Finances' tab. The main content area is divided into four sections:

- Review/Edit Finances:** Includes 'Experience Manager (SAE)', 'Review / Edit', and 'Start of Ag. Ed. Inventory'.
- Your Financial Entries:** Includes 'Cash Entries (Entrep. & Research SAE)', 'Non-Cash Entries (Entrep. SAE)', 'Paycheck (Placement SAE)', 'Non-Current Manager (Buy/Sell, % Usage)', 'Loan Manager (Shortage or Loan)', and 'Non-SAE Entries (Personal & Educational)'.
- Chapter Finances:** Includes 'Record income/expenses in Chapter accounts.'
- Livestock Managers:** Includes 'Market Manager (market & young breeding animals)' and 'Breeding Herd Manager (breeding age animals & offspring)'. The 'Breeding Herd Manager' option is circled in red.

## 1. Choose SAE

- *Select which SAE to work in*

## 2. New Cash Purchases – Capital Assets

- Adds productive females as CASH
- List will appear after entry

## 3. Manage Breeding Animals

- *Edit assets, add offspring, perform management tasks*

## 4. Manage Offspring

- *Transfer out, sell, death loss*

## 5. Experience Manager

- *Return to SAE manager*

# Breeding Herd Manager – Add Animals

## Things to consider when adding animals:

1. Are the productive animals owned at the start of Ag?

- Use BLUE BOX – BEGINNING VALUES - NON-Current TAB

2. Are the productive animals purchased after the start day of Ag by the student with CASH?

- YES = USE

Breeding Herd Manager

- NO = USE

Finance Tab

- SAE Labor Exchange
- Gift

# Animals Owned Start of Ag

## Beginning Values

Beginning Date   Current Projects   **Non-Current**   Liabilities/Loans   Cash/Checking

Non-Current (Capital) items are assets you own that are used by your projects and that are usually expensive and last several years. <sup>?</sup> Examples include: show tack, feeders, breeding animals, trailers, and other equipment. If you have Non-Current Items from before you started class, you can use this page to add them. The PURCHASE DATE will automatically be set to your first day of class. Use the [Capital Item Manager](#) to specify additional details, depreciation, etc for each non-current/capital item.

### SAE Labor Exchange for a non-Current Item

**Note:** If you perform chores (work) in exchange for a non-current item, use this screen to recognize the financial value of this arrangement. A properly-documented labor exchange likely includes three parts:

- Use this screen to recognize the value of your labor exchanged for a non-current item.
- Use the journal to recognize time spent and skills developed from your labor.
- Your SAE Plan should fully describe this arrangement.

This screen performs a financial trade and ONE Journal showing the activity. Be sure to add more [journals](#) as needed.
